PROFESSIONAL SUMMARY

Senior Data Engineer with 10+ years of hands-on experience in Data Analysis, AWS Cloud Solutions, and Software Engineering. Proven expertise in designing production-grade ETL/ELT pipelines using Apache Airflow, Databricks, PySpark, and PostgreSQL. Skilled in automating cloud infrastructure with Terraform, optimizing SQL queries for performance, and migrating legacy ETL systems to modern cloud-native architectures. Demonstrated track record of delivering 40% faster data processing, 98% data integrity, and 35% improvement in decision-making accuracy for Fortune 500 clients including Google and GE Vernova.

TECHNICAL SKILLS

Python | SQL | PySpark | PostgreSQL | AWS Cloud | EC2 | S3 | Lambda | IAM | Redshift | RDS | AWS Glue | Athena | EMR | EKS | CloudWatch | EventBridge | API Gateway | Step Functions | Databricks | Apache Airflow | ETL/ELT | Terraform | CI/CD | Flask | Django | Pandas | Tableau | Power BI | Looker | REST APIs | Postman | Git | GitHub | Bitbucket | Linux | Shell Scripting | Jira | Agile/Scrum | Debugging & RCA

PROFESSIONAL EXPERIENCE

Senior Data Engineer — June 2024 – Present

Genpact | Client: GE Vernova | Bengaluru, India

- Designed and implemented data pipelines using **PostgreSQL** and **Apache Airflow** for seamless orchestration and integration of data from various sources, enhancing data availability and performance for GE Vernova
- Led the migration of ETL processes from **Talend and Informatica** to **Enterprise Data Lake (EDL)**, optimizing data processing workflows and improving scalability and efficiency
- Automated cloud data infrastructure using **Terraform**, provisioning and managing multiple AWS resources for standardized, scalable, and secure data engineering environments
- Led end-to-end development of production-grade **ETL/ELT pipelines** using **Databricks, PySpark, and AWS services**, improving scalability, reliability, and cost efficiency
- Optimized SQL queries to enhance performance and reduce processing time, ensuring timely delivery of critical business insights while maintaining high data quality

Software Engineer — Reporting — May 2023 – April 2024

Kwalee | UK-based App Development | Bengaluru, India

- Collaborated with the Reporting Team, leveraging **Python, SQL, and PostgreSQL** to develop new tools, improving reporting efficiency by **25%**
- Enabled Tableau Dashboard Executives to make more informed decisions by integrating **AWS Glue and PySpark** for data analysis, resulting in a **30% increase** in data-driven decision-making accuracy
- Generated ad-hoc data sets using **Python, SQL, and PostgreSQL**, leveraging AWS services such as **S3, Redshift, and RDS**, resulting in a **40% increase** in strategic decision-making processes
- Conducted data cleaning and validation using **Python, Pandas, and SQL**, leveraging **AWS Glue** for ETL processes, achieving a **98% data integrity rate**
- Implemented monitoring and alerting systems using **AWS CloudWatch**, ensuring proactive issue detection and resolution, reducing downtime by **15%**

Senior Analyst — Sep 2016 – May 2023

Vaco Binary Semantics LLP | Client: Google | Gurugram, India

- Enhanced internal tools with **Python and Git**, boosting operational efficiency by **20%** and seamlessly integrating with RESTful APIs
- Optimized data processes for **YouTube Ads** with **Python and SQL**, producing tailored ad-hoc datasets and enhancing decision-making accuracy by **35%**
- Developed comprehensive dashboards with **Tableau and Looker** to meet diverse organizational needs, enhancing data accessibility by **40%** and driving strategic decision-making for Google NESTcam
- Automated data processing workflows using **AWS Glue and Lambda**, resulting in a **35% improvement** in decision-making accuracy and scalability across various data platforms
- Maintained data integrity through meticulous cleaning and validation processes, achieving a **98% accuracy rate** with **Pandas library and PostgreSQL**

CERTIFICATIONS & EDUCATION

- ✓ AWS Certified Cloud Practitioner
- ✓ Getting Started with Python — Coursera
- ✓ NCC Grade A Certificate
- ✓ Genome BITS Wave for GEN AI

B.Tech (Honors) Mechanical Engineering
A.K.T.U., Lucknow, U.P.
2012 – 2016 | 74.50%

Senior Secondary (XII) — 75.40%
D.A.V. Public School, Ranchi (CBSE 2012)

Secondary (X)
D.A.V. Public School, Ranchi (CBSE 2010)
